Y1FC — Total Obligated by Department (FY2020–2026)

Department	Total Obligated	# Awards	Share of Y1FC	FY2024 Peak
Army	\$2,256.7M	88	63.2%	\$876.2M (FY2024)
Navy / Marines	\$1,314.1M	20	36.8%	\$677.0M (FY2021)
Air Force	\$2.0M	5	0.06%	\$1.4M (FY2020)
Total	\$3,572.8M	115	100%	—

Data source: USASpending.gov API · April 3, 2026 export · PSC code Y1FC = "Construction of Troop Housing Facilities" · All values represent cumulative obligations including all modifications. Air Force Y1FC = overseas containerized units only (Kuwait, Niger).

1. Spending Overview — Charts

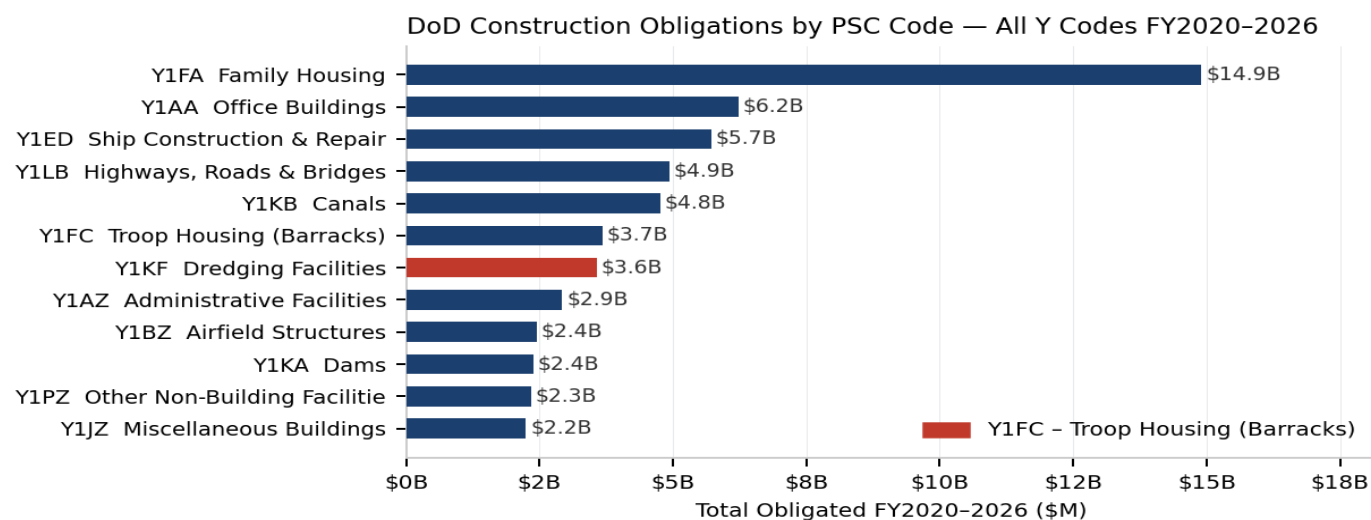

Figure 1 · Total obligated by Y PSC code FY2020–2026 (\$M). Y1FC (troop housing) is the 7th largest at \$3.57B — highlighted in red. The \$80.6B total includes all DoD construction from dams and dredging to roads and airfields.

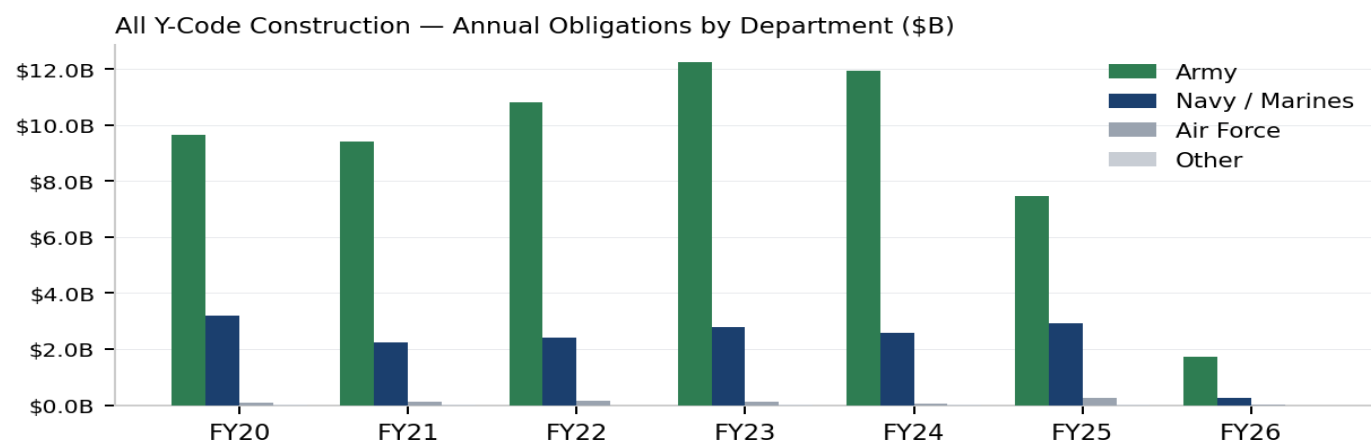

Figure 2 · All Y-code construction by department and fiscal year (\$B). Army dominates at \$63.3B (78.6%). FY2023–2024 represent peak Army construction years. FY2026 is partial year.

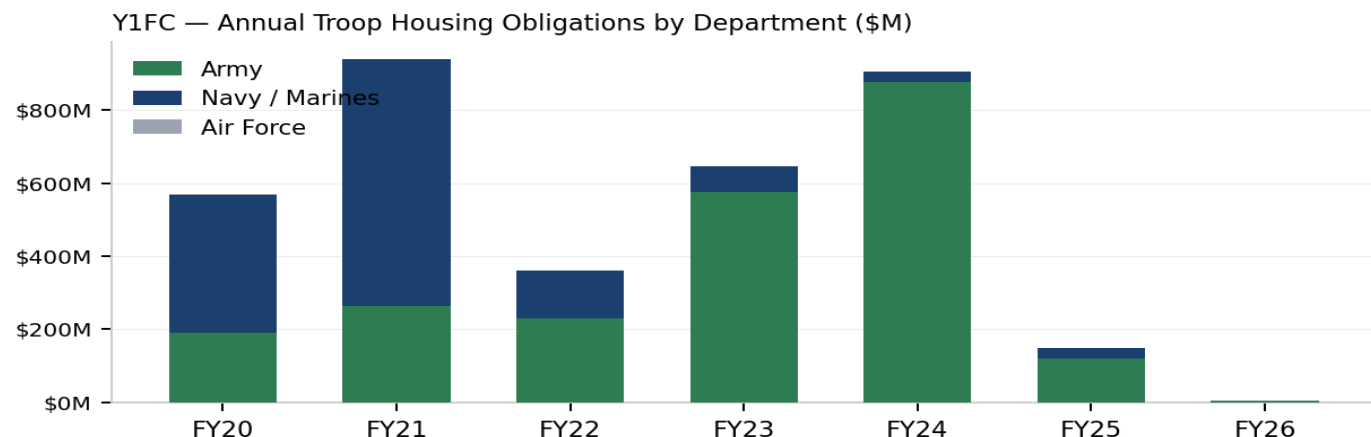

Figure 3 · Y1FC troop housing obligations by department (\$M). Navy peaked FY2021 (\$677M) driven by Guam DPRI build-out. Army accelerated FY2023–2024 responding to GAO-23-105797 barracks crisis report. Air Force is negligible.

2. Geographic Distribution — Past Projects (FY2020–2026)

Bubble size = number of unique Y1FC contract awards per state/territory. Numbers indicate count of base awards (not modifications). OCONUS projects (Japan, Germany, Iraq, Korea, Guam) included where applicable.

Army — Y1FC Past Projects (FY2020–2026)

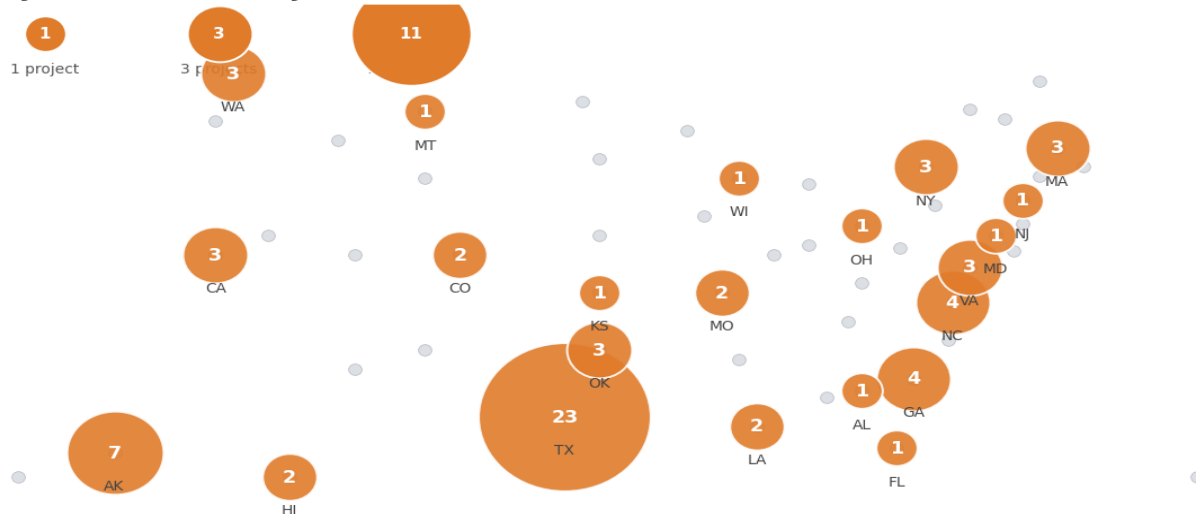

Figure 4 · Army Y1FC · 88 awards · \$2.26B · **Texas (23 awards)** dominates — Fort Cavazos rolling Hammerhead renovation + new UEPH builds. **Alaska (7)** = Fort Wainwright Arctic garrison. **Georgia (4)** = Fort Moore AIT. **NC (4)** = Fort Liberty. Also significant: CA (3), MA (3), NY (3), WA (3), VA (3), OK (3). OCONUS not shown: Japan (1), Germany (3), Iraq (6), S. Korea (2).

Navy / Marines — Y1FC Past Projects (FY2020–2026)

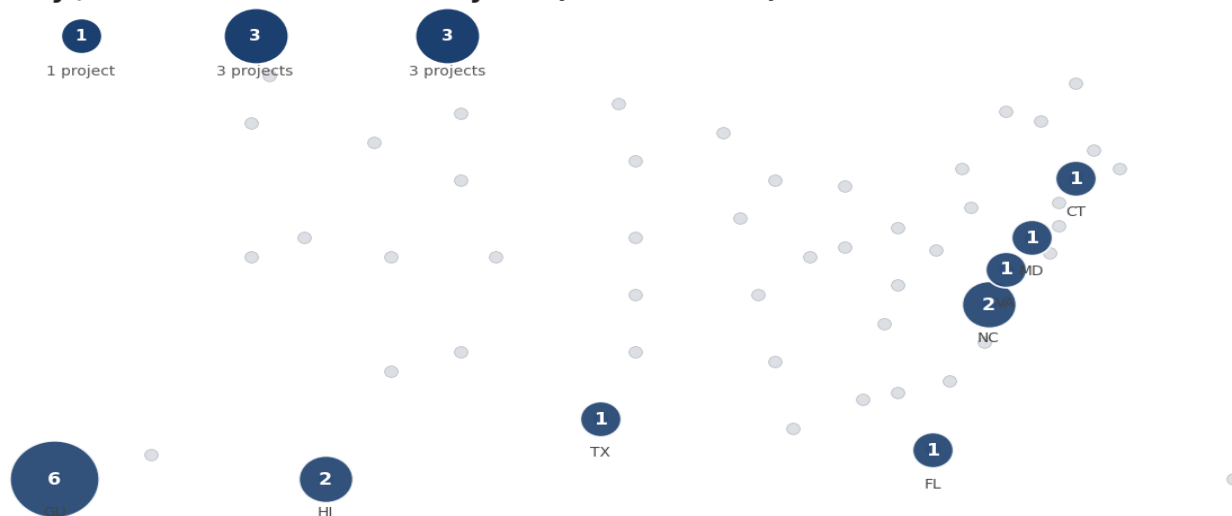

Figure 5 · Navy / Marines Y1FC · 20 awards · \$1.31B · **Guam (6 awards, \$1.04B)** is the dominant concentration — Camp Blaz Pacific Deterrence Initiative BEQ/BOQ build-out, Japan-funded DPRI. **Hawaii (2)** = MCB Kaneohe Bay BEQ P-911. **NC (2)** = Camp Lejeune area. OCONUS not shown: Japan (1), Tunisia (1), Thailand (1), Moldova (1). Air Force: no CONUS Y1FC awards.

Air Force Y1FC Note

The Air Force has **zero CONUS Y1FC awards** in the FY2020–2026 dataset. All 5 AF Y1FC awards are overseas: Kuwait (3) and Niger (2), totaling \$2.0M — containerized living and working units at expeditionary airfields. AF dormitory construction uses the privatized PAFD (Privatization of Air Force Dormitories) model — not captured in MILCON Y1FC data. AF appears on the future map below for Lackland AFB CDC and limited planned new starts.

Future / Planned Projects — All Services

Future / Planned Y1FC Projects — All Services Combined

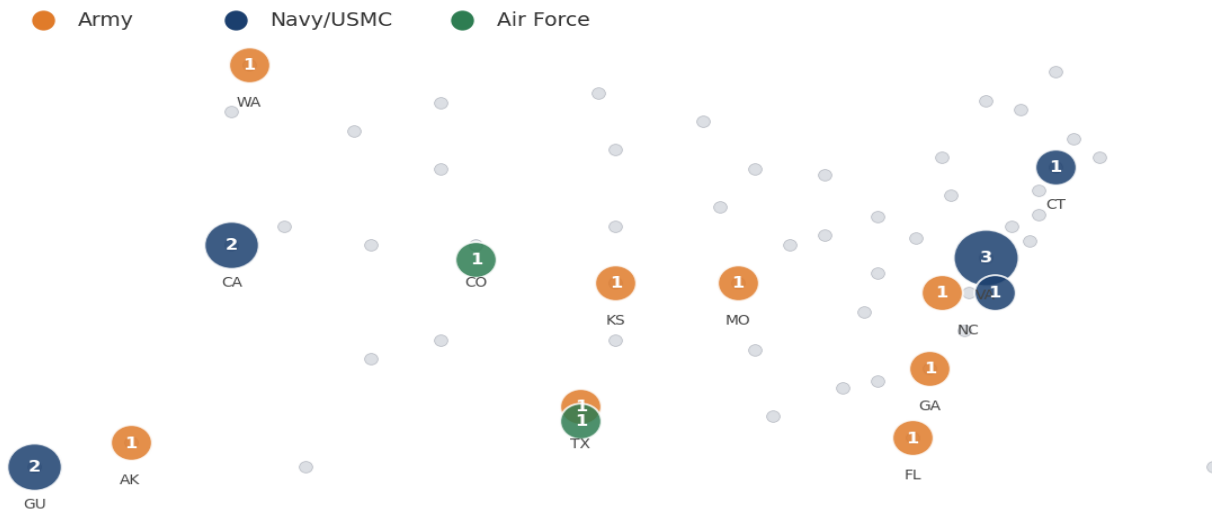

Figure 6 · Planned Y1FC projects FY2026–2030. **Army (orange):** Fort Wainwright AK (~\$97M), JBLM WA, Fort Liberty NC, Fort Moore GA, Lackland TX, SOCOM FL, Fort Leonard Wood MO. **Navy/Marines (blue):** Hampton Roads VA (3 projects — "No Sailor Lives Afloat"), San Diego CA (2), Camp Blaz Guam (2 follow-on), Camp Lejeune NC, NSB New London CT. **Air Force (green):** Lackland TX (CDC), USAFA CO. OCONUS not shown: Barton Barracks Germany (\$330M+, Army); MCAS Cherry Point NC (\$655M FY2029–33, Marines).

3. Spending Outlook — FY2027–2028 Projections

FY2027–2028 are **projected estimates** — no enacted budget exists as of April 2026. Projections are based on enacted legislative mandates and known project pipelines: P.L. 119-21 (OBBBA \$425M boot camp barracks); FY2025 NDAA Sec. 2841 FSRM mandate; "No Sailor Lives Afloat" initiative; Camp Pendleton BEQ replacement (\$841M FY2026–2028); MCAS Cherry Point (\$655M FY2029–2033). Army estimated at \$450–550M/yr; Navy at \$300–400M/yr.

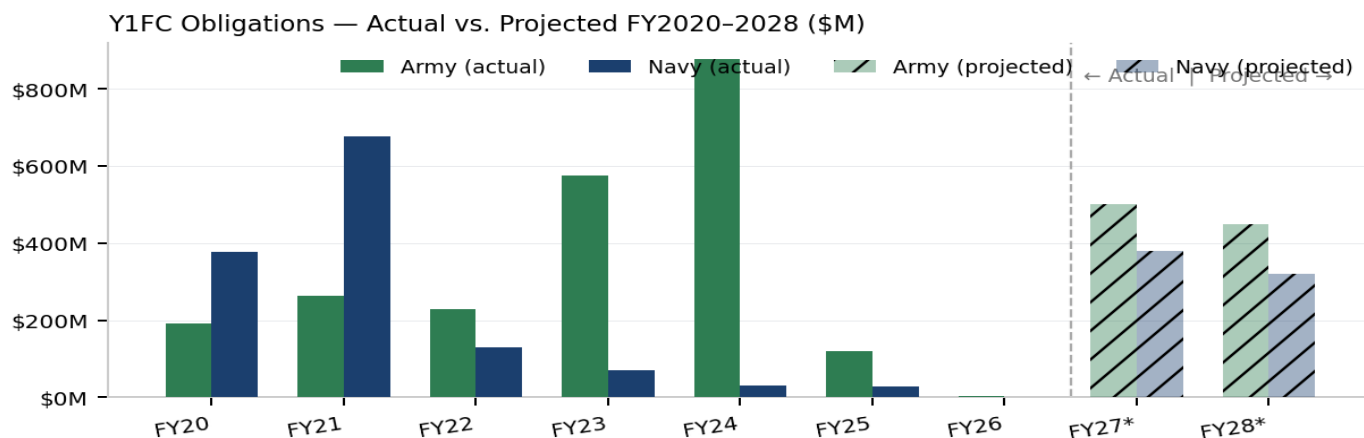

Figure 7 · Y1FC actual obligations FY2020–2026 vs. projected FY2027–2028. Hatched bars = estimates. Army FY2024 peak (\$876M) driven by Lackland ATC and Okinawa Marine Corps contracts.

5. Departmental Trends & Future Outlook

Army

\$2.26B Y1FC · 88 awards · Peak FY2024 (\$876M)

The Army is the dominant and growing barracks investor. Its FY2023–2024 acceleration was Congress's direct response to GAO-23-105797 (September 2023), which documented systematic barracks failures — mold, pest infestations, broken HVAC, fire hazards — across Army installations. The Hammerhead renovation program at Fort Cavazos (Guyco Inc., \$333M over 6 awards) and new UEPH design-builds (Cerris Builders, \$278M over 6 awards) represent the two dominant execution models: renovation of legacy 1970s double-loaded corridor barracks, and new 1+1 standard (private bedroom/bath per soldier). Fort Cavazos (TX), Alaska garrisons, North Carolina, Georgia, and Massachusetts are the leading state concentrations. OCONUS: Germany (3 awards), Japan (1), Iraq (6 small LOGCAP-style). Forward: Army FY2026 PBR requests Fort Wainwright AK (~\$97M), Camp Bull Simons FL (SOCOM), and Barton Barracks Germany (\$330M+). The OBBBA (P.L. 119-21, July 2025) adds \$425M for boot camp barracks at Fort Jackson SC, Fort Sill OK, and Fort Leonard Wood MO. Army demand projected at \$450–550M/yr Y1FC through FY2028. Sources: Army FY2026 PBR MILCON; GAO-23-105797; P.L. 119-21.

Navy / Marines

\$1.31B Y1FC · 20 awards · Peak FY2021 (\$677M)

The Navy/USMC program was front-loaded into FY2020–2021 by the Guam PDI build-out — nearly all funded by the Government of Japan under the U.S.–Japan DPRI bilateral agreement as part of Marine Corps Okinawa reposturing. Core Tech-HDCC-Kajima JV (\$574.7M, 5 BEQ towers), Caddell-Nan JV (\$348M, 2 BEQ packages), and Black Construction-Tutor Perini JV (\$222M, 2 BOQ buildings) together account for \$1.14B — 87% of all Navy Y1FC spend. After FY2021, Navy Y1FC dropped sharply to \$30–131M/yr as Guam completed. The forward pipeline is the largest since the PDI surge: "No Sailor Lives Afloat" (targeting 8,000–10,000 sailors off ships by FY2027) will generate \$300–500M+ in new Y1FC at Norfolk VA and San Diego CA. Camp Pendleton BEQ repair-by-replacement: \$361M (FY2026), \$266M (FY2027), \$214M (FY2028) per the DoD Projects Database. MCAS Cherry Point NC: \$655M in 5 packages FY2029–2033. Sources: DoD Projects Database; NAVFAC FY2026 Budget; Defense One Feb 2026; Stars & Stripes 2026.

Air Force

\$2.0M Y1FC · 5 awards · No CONUS presence

The Air Force has effectively zero Y1FC construction in the CONUS dataset. All 5 AF awards are overseas expeditionary (Kuwait, Niger) containerized units totaling \$2.0M. This reflects the AF's Privatization of Air Force Dormitories (PAFD) program — dormitories at most major AF bases are managed by private housing companies (Balfour Beatty, Hunt Communities, etc.) under long-term public-private venture agreements, funded outside MILCON Y1FC appropriations. Tyndall AFB reconstruction (Cat. 4 hurricane recovery) uses Y1AZ/Y1JZ codes, not Y1FC. Forward: The Air Force participates in the DoD-wide \$347.8M CDC program (FY2026 MILCON-VA Act) but has no identified large-scale Y1FC CONUS barracks new-starts in Senate Rept. 119-43 or the FY2026 PBR. Space Force basing at Peterson/Schriever CO and Vandenberg CA will require new Y1FC over FY2027–2029 as Space Force grows. Sources: AF FY2026 PBR; CRS IN12407; Senate Rept. 119-43.

6. Strategic Narrative — Future DoD Barracks Investment

The DoD is entering the largest sustained troop housing investment cycle in a generation. Three structural forces are converging simultaneously: (1) **a documented infrastructure crisis** — GAO-23-105797 found Army barracks failing basic habitability standards across 40+ installations, with a CBO-estimated \$24B backlog in FSRM alone; (2) **legislative mandate** — the FY2023 NDAA Sec. 2841, the \$1.45B OBBBA quality-of-life package (P.L. 119-21), the FY2024 MILCON-VA Act \$662M barracks supplement, and FY2026's \$347.8M CDC package represent the first sustained Congressional forcing function in two decades;

and (3) **operational demand** — the Navy's "No Sailor Lives Afloat" initiative (8,000–10,000 sailors targeted ashore), the Marine Corps' Camp Pendleton \$841M BEQ replacement cycle, and Army Pacific garrison expansion all create net-new Y1FC demand that has not yet appeared in the obligation data.

The contractor market is concentrated and largely service-siloed. Guyco Inc. (\$333M, 6 Army awards), Cerris Builders (\$278M, 6 Army awards), and Watterson Construction (\$70M, 1 Army award) are Army-exclusive. Core Tech-HDCC-Kajima JV (\$574.7M), Caddell-Nan JV (\$348M), Black-Tutor Perini JV (\$222M), and Nan Inc. (\$123.5M) are Navy/USMC-exclusive Pacific specialists. Only Clark Construction Group demonstrates cross-service reach in Y1FC (Army Lackland ATC + Marines DC P-158). Average Y1FC contract value has grown from ~\$15M (FY2020) to ~\$40M+ (FY2024), reflecting 30–40% construction cost inflation since 2019 and DoD's deliberate consolidation into fewer, larger design-build awards. This creates both barrier-to-entry for new contractors and increased modification risk: the data shows 12–40 mods on complex multi-year awards.

The projected \$450–550M/yr Army Y1FC and \$300–400M/yr Navy Y1FC through FY2028 — combined with the Camp Pendleton (\$841M) and Cherry Point (\$655M) pipelines — represent a sustained \$900M–1.0B/yr Y1FC market through at least FY2030. The NDAA Sec. 2841 FSRM mandate, if implemented at even 50% of its \$12B/yr statutory level, would create a renovation/sustainment pipeline an order of magnitude larger than the new construction numbers. DoD has formally opposed full implementation, but even a partial mandate establishes a permanent high floor for troop housing investment. Sources: GAO-23-105797; CBO FY2024 Defense Infrastructure report; P.L. 119-21; P.L. 119-37; P.L. 118-159; Army FY2026 PBR; NAVFAC FY2026 Budget; DoD Projects Database; Senate Rept. 119-43; CRS IN12622.

Sources & Methodology

Spending data	USASpending.gov API export · April 3, 2026 · 46,807 transactions · 6,686 unique awards · PSC code Y1FC = "Construction of Troop Housing Facilities"
Y1FC definition	PSC Y1FC captures all federally funded construction contracts coded as troop housing. Does NOT include privatized housing (PPV), family housing (Y1FA), or repair/alteration under Z-prefix PSC codes.
Award aggregation	All modifications grouped by award_id_piid and summed. Pre-FY2020 contracts (181 awards) appear only through modification history — base awards not captured. Totals represent dollars obligated FY2020–2026, not contract award values.
Maps	Bubble size = number of unique base contract awards per state. Guam (GU) and Puerto Rico (PR) shown as insets. OCONUS projects (Japan, Germany, Iraq, Korea) not shown on CONUS maps.
Future pipeline	DoD Projects Database (internal); Army FY2026 PBR MILCON Justification (comptroller.defense.gov); NAVFAC FY2026 Budget; P.L. 119-37 (FY2026 MILCON-VA Act, Nov 2025); P.L. 119-21 (OBBBA, July 2025); P.L. 118-159 (FY2025 NDAA); Senate Rept. 119-43; GAO-23-105797 (Sep 2023); CRS IN12622, IN12407; DoD Mandatory Funding Allocation Plan (Feb 2026); Defense One; Stars & Stripes.
Caveats	FY2025 and FY2026 are partial-year figures. Air Force Y1FC is negligible (expeditionary overseas only). Privatized barracks (Balfour Beatty, Hunt Military Communities) are not in MILCON Y1FC data. FY2027–2028 projections are estimates — no enacted budget exists as of April 2026.

Report prepared April 2026. For internal use and government briefing purposes. All dollar figures are cumulative obligations from USASpending.gov transaction records.
